This course provides the necessary foundation to fully utilize the power of the Citrix® MetaFrame XP™ product family. Citrix MetaFrame XP is the most manageable, scalable and flexible platform for application delivery and management — specifically optimized for the Internet and Microsoft® Windows® 2000 Servers.

Formal instructor-led training quickly gets the administrator familiar with the MetaFrame XP features and functions, enabling your enterprise to immediately benefit from the power of the product. This four-day course prepares administrators to perform Citrix MetaFrame XP installations and administrative tasks.

Course Length Four days

Prerequisite A working knowledge of Microsoft Windows 2000 server products

Skills and Key Topics At the end of this course, you will be able to:

- Install Citrix MetaFrame XP and Citrix ICA® Clients in a variety of network environments
- Recognize Citrix technologies including Independent Computing Architecture (ICA), Independent Management Architecture (IMA), client device licensing and SpeedScreen™ Latency Reduction
- Identify the features and functions of the Citrix Management Console, configure a server farm and individual server settings, manage licenses and administer MetaFrame XP servers
- Shadow users, configure SpeedScreen Latency Reduction and new ICA connections
- Utilize Load Manager and MetaFrame XP security features
- Install and publish applications in the MetaFrame XP multi-user environment
- Identify ICA Clients along with the functions and features of the ICA Clients
- Use the Citrix Program Neighborhood® to connect to applications on local and remote networks
- Understand how Citrix NFuse® Classic delivers applications to ICA Clients
- Configure Application Launching and Embedding (ALE) for the ICA Clients
- Identify and configure new printer management features included with MetaFrame XP
- Monitor and troubleshoot Citrix MetaFrame XP servers
- Recognize the features available with MetaFrame XPe, including application packaging and delivery, system monitoring and analysis

Instructional Method Interactive presentation and practical application through hands-on labs and group activities

Certification Preparation This course will prepare you for the Citrix Certified Administrator™ (CCA) for Citrix MetaFrame XP exam (Exam #220/221)
